

Norquay Garden Report
March 7th, 2024 PAC Meeting

Food Garden Update:

- Minor repairs to 2 boxes to be coordinated.
- Spring garden prep to start after spring break with soil delivery to top up planters. Cost can be taken from School Garden fees pending approval by the Principal.
- Add some new herbs to the herbs boxes for use by LunchLABS if needed.
- Explore growing some produce that could be used by LunchLABS if there are any free garden boxes. Can this be done without adding extra work for the teachers?
- Can PAC sponsor the purchase of some veggie starters to be distributed to teachers to supplement seed starting and herbs for the herb planters. (Up to \$100?)

Native Plant Border Update:

- There are some native plants to be installed this spring.
- Future signage with educational component to be explored.

Nature Play Project Update:

- Principal Deena has put in a work order to VSB Grounds. We are waiting to receive their detailed quote and information on installation scheduling.

Funding, Grants and Fundraisers:

- Fundraising options needed for Nature Play once final budget received from VSB Grounds.
